

The Golden Liquid

Argan oil is an oil produced from the kernels of the Argan tree (*Argania Spinosa*), endemic to Morocco, that is valued for its nutritive, cosmetic and numerous medicinal properties. The tree, a relict species from the Tertiary age, is extremely well adapted to drought and other environmentally difficult conditions of southwestern Morocco. The tree once covered North Africa and is now endangered and under protection of UNESCO

What Is Its Secret?

Argan oil is exceptionally rich in natural tocopherols (vitamin E, 73mg per 100g), rich in phenols and phenolic acid, rich in carotenes, rich in squalene, rich in essential fatty acids, 80% unsaturated fatty acids and depending on extraction method more resistant to oxidation than olive oil.

Virtues Of Argan Oil

All Argan sold today is produced by a women's cooperative that shares the profits among the local women of the Berber population. The cooperative has established an ecosystem reforestation project so that the supply of Argan oil will not run out and the income that is currently supporting the women will not disappear. The money is providing healthcare and education to the local women, and supporting the entire community as a whole.

Benefits Of Argan Oil

Argan oil, when applied to the skin, hydrates, regenerates and can reduce the appearance of fine lines and wrinkles - overall it renews the vitality of your skin by protecting its resilience. It has also been known to assist in the treatment of skin conditions, such as Psoriasis, Eczema, Rosacea and Acne.

Low in saturated fat, when ingested, Argan oil reduces dangerous levels of plasmatic cholesterol and plays a primary role in reducing the risk of cardio vascular diseases as well as combating high blood pressure.

The Story Behind House of Argan

House of Argan is the leading producer, manufacturer and importer of Argan oil products from Morocco. All of our products are 80-100% Argan oil and 100% natural.

Nacera Gomes set up House of Argan in order to promote this fabulous oil and to share the secret of its many benefits that the Berber women have held for centuries.

She discovered the oil herself on a trip to Morocco and after using it for a month, she noticed a huge difference to her skin, which looked and felt smooth and nourished as never before; from that moment on, she was converted and has never looked back.

A qualified aromatherapist; her ambition is to educate and share her knowledge and experience and introduce all those seeking well being, beauty and health, to the vast wealth of benefits that can be gained from using Argan oil.
